SAT-MOD-20090617-00070	S2633	TerreStar Networks Inc.
-------------------------------	-------	-------------------------

INFORMATIVE

The Bureau has determined that TerreStar Networks Inc. has met the launch and operation milestone associated with the authorization for the TerreStar-1 satellite. Accordingly, TerreStar may release the bond for TerreStar-1, as provided in the Amendment of the Commission's Space Station Licensing Rules and Policies, First Report and Order and Further Notice of Proposed Rulemaking, IB Docket No. 02-34, 18 FCC Rcd 10760 (2003); Amendment of the Commission's Space Station Licensing Rules and Policies, First Order on Reconsideration and Fifth Report and Order, IB Docket No. 02-34, 19 FCC Rcd 12637 (2004).

SAT-STA-20081027-00210

Sirius XM Radio Inc.

On July 22, 2009, the Policy Branch granted the request of Sirius XM Radio Inc. to designate its application for special temporary authority to operate terrestrial repeaters in the Commonwealth of Puerto Rico as "permit-but-disclose" for purposes of the Commission's rules governing ex parte communications. See Request for "Permit-But-Disclose" Ex Parte Status, filed by Sirius XM Radio Inc. on July 13, 2009. We find that designating this proceeding as "permit-but-disclose" will facilitate resolution of the complex policy issues raised by the application. In addition, changing the ex parte status of the proceeding will make the ex parte status of the application consistent with the "permit but disclose" status already in effect in a related rulemaking in which the same questions of law and policy are at issue. See Establishment of Rules and Policies for the Digital Audio Radio Satellite Service in the 2310-2360 MHz Frequency Band, IB Docket No. 97-91, Second Further Notice of Proposed Rulemaking, 22 FCC Rcs 22123 (2007). Thus, we designate IBFS File Nos. SAT-STA-20081027-00210 as "permit-but-disclose," effective July 22, 2009. See 47 C.F.R. §§ 1.1200(a), 1.1206 and 1.1208 note 2. This action is without prejudice to any determination regarding the processing of the application.
